

Design Sprint Day 2

Goal: To help college students build a strong resume that will work well in their targeted job applications and connect them to said jobs.

Group - Features (By Pages)

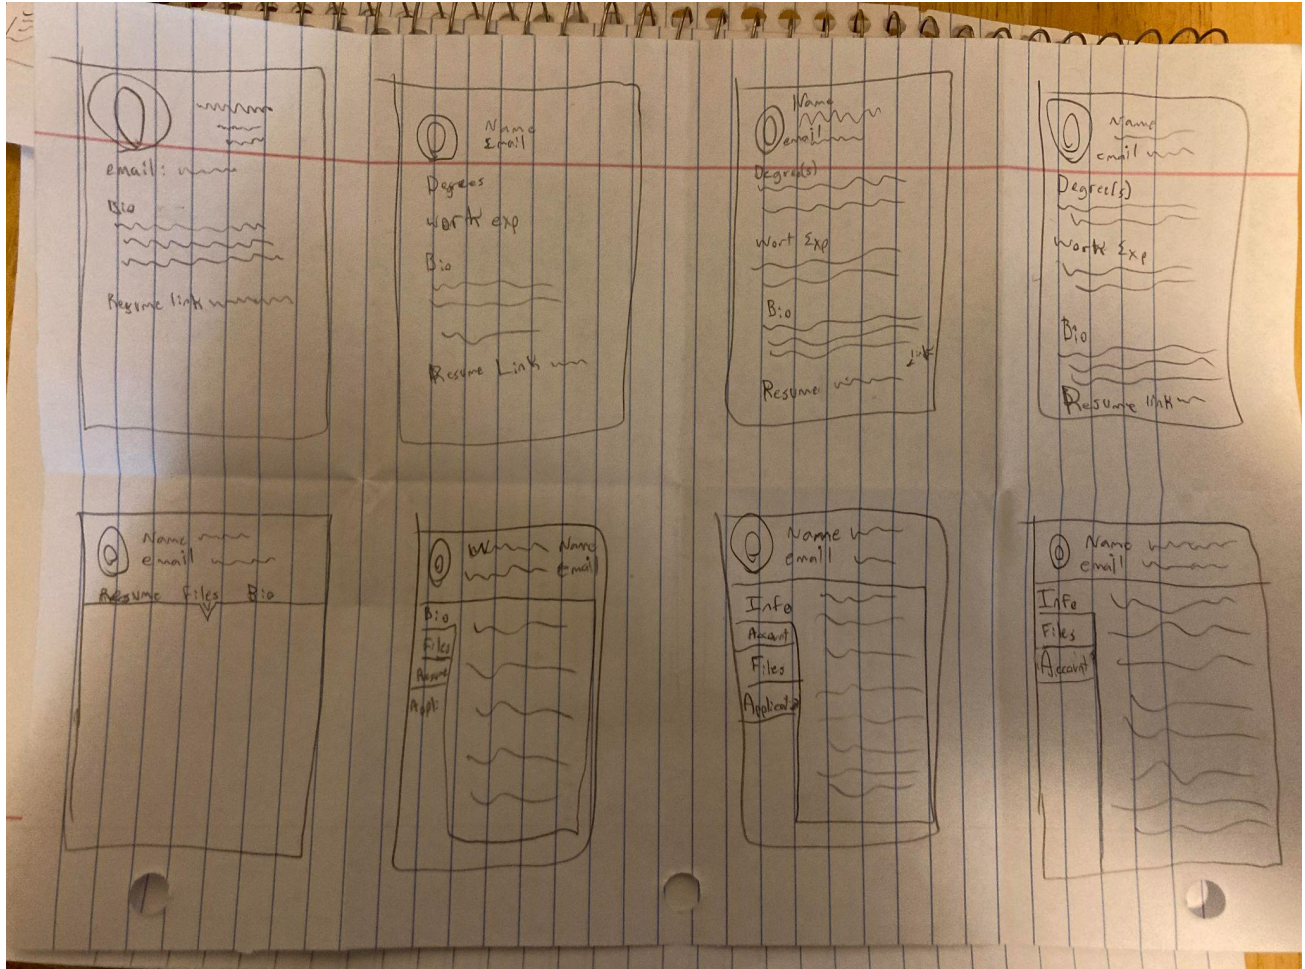

Github Repository: <https://github.com/faustotnc/goldpath-itcs3155>

- Login & Signup
 - Login Form
 - Sign Up Form (Notifications/Updates)
- Profile Page
 - Update Personal Information
 - Update Password
 - Set Profile Picture
 - Set Profile Visibility
- Resume Builder
 - Personal & Contact Information Form
 - Education Form
 - Work Experience Form
 - Projects Form
 - Skills Form
 - Honors and Awards Form
 - – The “Others” Section
 - Volunteer Work
 - Certifications and licenses
 - Associations
 - Publications
 - Spoken Languages
 - Conferences and training
 - Generate a Custom Resume PDF with tailored content.
 - Submit Data to Train ML Models.
- Competency Hub
 - Users can see how well their resume matches a particular job
 - Users can see how they rank when compared to users with the same job goal
 - Users can be ranked by location, and/or
 - Users can be ranked by age group
 - Users can see a list of areas in their resume that need improvement
 - The ML models suggest courses that users can take to improve those areas
- Networking Center

- Interview Prep
 - Users can participate in mock interviews by recording themselves answering a list of questions
 - Users can participate in mock interviews with other people
 - The videos can be saved and accessed later
- Users can “connect” with recruiters to chat about their job application
- Users can interview with recruiters online through the website
- Users can schedule in-person interviews with recruiters
- Recruiters can recommend job postings directly to the users
 - This adds points to their ranking in the Competency Hub
- Application Center
 - Users can apply for jobs that best match their resume
 - Filter Matched Jobs by criteria (Location, Company, Salary, etc.)
