Design Sketch #1: A view of the "Resume Match" section of the Competency Hub page.

Note #1: It The main section is a plot of the percent matches of all users who are applying to the same job or company. The horizontal line tells the user where they stand compared to all other users.

Note #2: This section also displays ways in which the applicant can improve their resume by suggesting different courses and certifications that match with the job requirements.
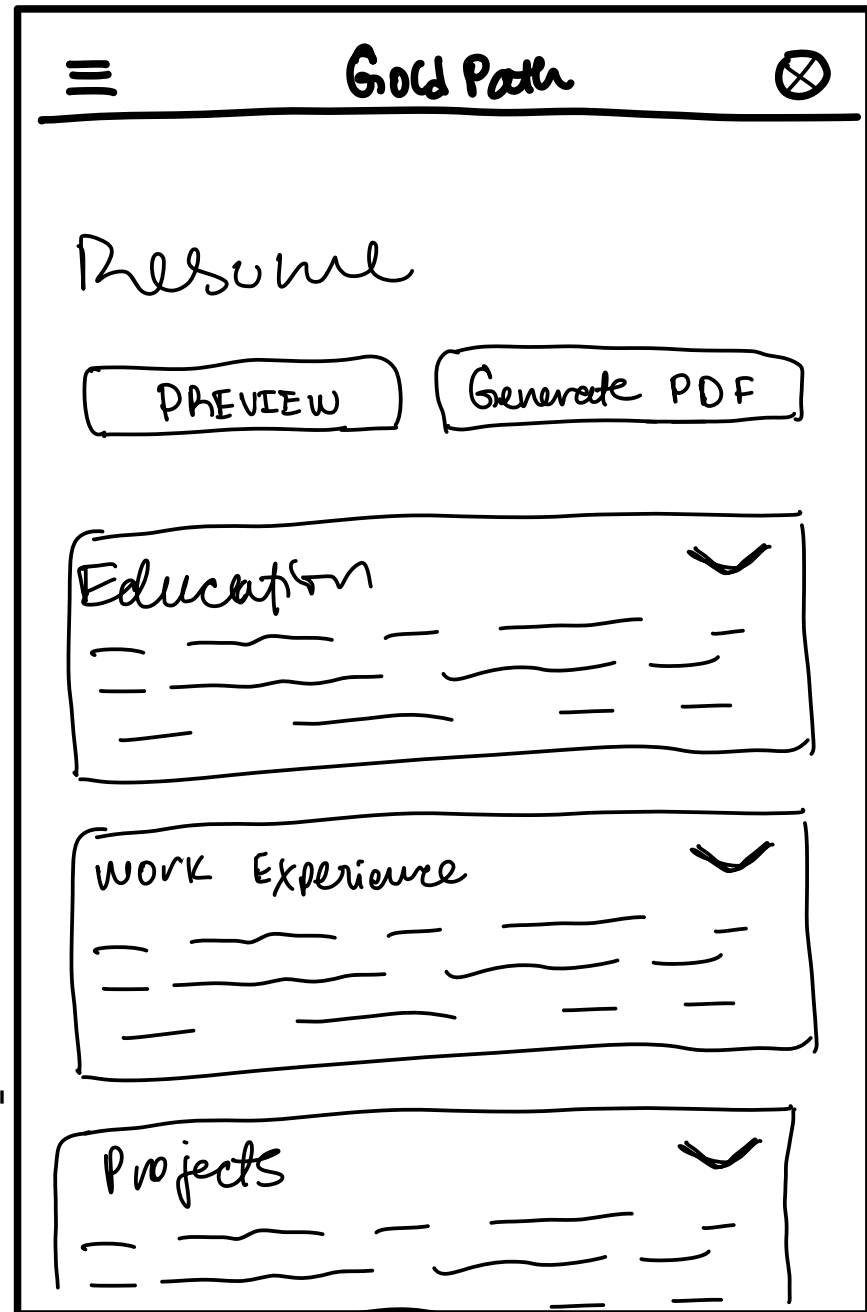

Design Sketch #2: A view of a single resume in the Resume Builder page.

Note #1: The different editable sections of the resume are displayed in the form of a single-item accordion container.

Note #2: The user can click on the chevron button to expand the accordion container and view or edit the contents of that section of the resume.

Note #3: The users can click on the "PREVIEW" button to preview the resume in one of the templates, or "GENERATE PDF" to export a PDF version of the resume.

Design Sketch #2: A view of the "Upcoming Interviews" section of the Networking Center page.

Note #1: Scheduled interviews are displayed using mini-cards to maintain a clean and organized look.

Note #2: Both the date and the time of the interview are displayed with bolder and bigger font to emphasize the interview's importance.

Note #3: Users can click the "+" button to add an external interview, and keep track of them in one place.
